Quizlet FAQs for parents

1 What is Quizlet?

Quizlet is a suite of powerful tools that help students learn material in effective and engaging ways. With several different learning activities, students can go at their own pace and choose what works best for them. And it's **free** to use.

2 How will my child use Quizlet?

Your child can review their **class material** in many different fun ways, from flashcards to practice tests to timed games, in school or at home:

And they can **study on the go** with Quizlet's free mobile apps, available on iOS and Android. They even work offline!

3 What are Quizlet's safety and privacy practices?

Quizlet complies with the Children's Online Privacy Protection Act (COPPA). This means that children under 13 have a protected experience on our site and apps, and their accounts are confirmed by their parent or legal guardian. Learn more about our privacy practices and parental rights: quizlet.com/privacy

4 How do we get started?

Go to quizlet.com and click

Sign up

Tip: Use **G** Signup if your child has a student Google account.

Additional instructions for parents: _____

We'll ask for your child's birthdate, a username, and a parent's email address. Then we'll send an email with a link to confirm your child's account.

Next, join the teacher's class by going to: quizlet.com/join/ _____
